Re: Commercialization of the "**Catalysts and fuels for producing hydrogen**"

Dear Douglas,

Congratulations on recently receiving notice of allowance from the United States Patent and Trademark Office. Your patent was officially granted on (10/22/2019).

As a patent owner you are ranked among an elite group of individuals with the vision and perseverance to see your accomplishment acknowledged as "Intellectual Property (IP)".

With the protection of this patent and the 23 exclusive claims granted, you are now entitled to pursue profitability from your invention.

BankOnIP specializes in commercializing patented products and technologies, with a primary emphasis placed on venture backed licensing arrangements, raising capital, and/or brokering acquisitions. See our website for more information: [www.BankonIP.com](http://www.BankonIP.com).

After preliminary review of your patent, we feel that the "**Catalysts and fuels for producing hydrogen**" offers excellent opportunities for commercialization. In fact we have companies in our database actively seeking IP in this market.

Based on our successful track record, we are confident that our team can help you locate manufacturers, secure venture capital, and/or provide comprehensive strategies that are designed to help you quickly attain profitability.

We are highly selective in the portfolios we choose, and at present prefer to be compensated with a percentage of the royalties through contingency arrangements and revenue sharing business models.

I look forward to speaking with you and exploring the many opportunities that are now available to you.

Sincerely,

Amy Schleicher  
Vice President of Business Development
